

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Jr. Chefs In Action! **2-5/6** **Rachna Patel** **Monday 9:20am-10:30am \$450** **14** **1/25/202** **05/17/2021**

Enjoy hands-on edible education, while boosting your confidence in the kitchen! Experience seasonal, global, and holiday themes, like Summer Luau, Taste of India, Mexican Fiesta, and so much more, all while learning creative and useful culinary fundamentals! Develop safe and smart kitchen techniques.
Learn about substitutes to meet dietary needs, terminology, and metrics (math). The class will get to demonstrate a skit using many of the skills learned. Join all the fun with a lot to learn!

Language Arts Grammar Part 2 **2-3** **Ilene Marks** **Monday 10:40am-11:50am \$350** **14** **01/25/20** **05/17/2021**

Part 2 - Enhance essential skills with this literacy and critical thinking program designed to improve a student's grammar, reading, spelling, punctuation, writing & creativity. This program builds confidence by improving stronger language and communication skills. Students use their own Language Smarts workbook. Fun while learning! Small class, lots of individual attention. 14 week class.

If interested, please contact me in advance to make sure your child is on the correct level. Books must be purchased in advance for any new students. (\$35) Email Ilene at highlowmusic@yahoo.com for more information.

Crunchin' #'s With Math Games **K-3** **Rachna Patel** **Monday 12:30pm-1:30pm \$350** **14** **1/25/202** **5/17/2021**

Students will be actively involved in learning - and will have a blast through fun math games! This will be an exciting class where students will learn critical thinking and mathematical reasoning in the context of games, stories and puzzles. You will soon notice how your kiddos think and respond to new ideas! My goal is to provide repeated opportunities for students to play games, and then let the mathematical ideas emerge as they notice new patterns, relationships, and strategies. For more info: patelrp1986@gmail.com

A.T.O.M. Science Club **Middle-High Madame Atom** **Monday 12:30pm-2:30pm \$750** **14** **1/25/202** **5/17/2021**

Some science programs give students just a taste of science, exposing them to an idea here and there. A.T.O.M. Science Club gives them the full meal, not just the appetizer. Rather than focusing on whiz-bang-wow demonstrations, this academically oriented program targeting STEM education provides a solid foundation in the principles of science. Club members discover the incredible connections among atoms, molecules, living organisms, and our universe. Through hands-on experiments, discussion, and presentations, we study chemistry (atoms), physics (energy and matter and how they interact), biology (life study), and astronomy (the universe).

Your child will not only gather knowledge but, like Galileo Galilei, will learn to think critically and analyze situations scientifically. For more information about A.T.O.M. Science Club please visit the website: www.atomsclub.com

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Public Speaking	2-5/6	Ilene Marks	Monday	1:30pm-2:30pm	\$340	14	01/25/20	05/17/2021
------------------------	--------------	--------------------	---------------	----------------------	--------------	-----------	-----------------	-------------------

Fourteen (14) week class as students strengthen skills together and practice, practice, practice! Improve self-confidence with this important skill in a comical & nurturing way. Activities include interviews, jokes, debates, plus, an introduction to the How To Presentation class. Students share monologues from plays & Disney movies. In addition students learn the basics to prepare & structure an effective speech. They discover tools to articulate that information, while improving their posture, eye contact & body language. Lessons last a lifetime. For more information please contact Ilene at highlowmusic@yahoo.com.

Drawing, Sketching and Pastels	Middle-High	Mr. Green	Monday	1:30pm-2:30pm	\$350	14	1/25/202	5/17/2021
---------------------------------------	--------------------	------------------	---------------	----------------------	--------------	-----------	-----------------	------------------

Drawing is intense observation, without the ability to study an object, students will not be able to accurately draw the object. In the class students will receive instruction, demonstrations and opportunities to work with different types of paper surfaces and medium. Starting with basic concepts including negative space, line, form, and color theory, they will move on to practice techniques such as shading, texture, and perspective to add dimension and depth to their work.

This is an ongoing class and will be offered for all 14 weeks of this semester.

D.A.C. Draw Amazing Cartoons	2-5/6	Mr. Green	Monday	2:30pm-3:30pm	\$350	14	1/25/202	5/17/2021
-------------------------------------	--------------	------------------	---------------	----------------------	--------------	-----------	-----------------	------------------

The students will begin by creating a cartoon charactermaybe someone they know or someone made up. We will give life to the character through the surrounding, story, mapping a plot. Drawing storyboards. Mastering expressive typography. In this fun class, students will learn the complete set of techniques needed to illustrate compelling characters and stories, just like the ones in their favorite graphic novels. The emphasis will be on humor and positive attitudes, nothing inappropriate.....my rule is if it's okay with your Mom it's okay with me.

This is an ongoing class and will be offered for all three sessions of this semester.

DIY Crafts: Makin' It Real!	K-5/6	Rachna Patel	Monday	2:50pm-3:50pm	\$450	14	1/25/202	5/17/2021
------------------------------------	--------------	---------------------	---------------	----------------------	--------------	-----------	-----------------	------------------

Get creative & spark up your imagination! Here's a great opportunity to enhance & develop artistic and motor skills through crafting, painting, building, designing, and so much more! We'll be making several personalized projects such as t-shirts, canvas paintings, holiday-themed projects, & even a LEGO project! For more info: patelrp1986@gmail.com

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

A.T.O.M. Science Club	2-5/6	Madame Atom	Monday	10:30am-12:00	\$500	14	1/25/202	5/17/2021
------------------------------	--------------	--------------------	---------------	----------------------	--------------	-----------	-----------------	------------------

Children love science, especially if playfully explored! After all, they are of an age at which they love discovering the world. In this beginning adventure, club members discover the incredible connections among atoms, molecules, living organisms, and the universe. We explore chemistry (specifically atoms), physics (forces and matter and how they interact), biology (life), and astronomy (the universe). During each weekly meeting, science club members will experience at least one of the following: an experiment, a game, videos relating to the theme of the day, hands-on activities, discussion, learning by acting out the theme of the day, or exposure to related current events. Kids will leave each meeting—and the series—with knowledge to last a lifetime. For more information about A.T.O.M. Science Club please visit the website: <http://www.atomsclub.com>

Chess	2-High	Micah Rosenheim	Monday	10:40	\$230	14	1/25/202	5/17/2021
--------------	---------------	------------------------	---------------	--------------	--------------	-----------	-----------------	------------------

Class covers all aspects of chess both tactical and strategic. Student must have prior knowledge of the rules of the game And be open to playing with their fellow classmates online.

Course consists of two parts:

1)-lecture/discussion where we look at interesting positions

Or play over prior games.

2)-Actually playing games online on chess.com (each

Player has 30 minutes to complete the game.)

Beginners and advanced players welcome. All efforts

Will be made to match players with similar abilities.

Intrigued By Science	2-5/6	Rachna Patel	Monday	10:40am-11:40am	\$450	14	1/25/202	05/17/2021
-----------------------------	--------------	---------------------	---------------	------------------------	--------------	-----------	-----------------	-------------------

Hands-on Science Class: Listening? Reading? Watching? BORING!!! Join me to really be Intrigued by Science through mind-blowing experiments! Kids are always curious with excellent questions, wondering why this and why that, and the best way they learn is by actually touching and experimenting with the actual items! Learn the Scientific Method, new terminology, causes and effects of certain combinations, and so much more! For more information, Contact Rachna at 501-944-0780

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Read to Succeed!	K-3	Rachna Patel	Tuesday	9:20am-10:30am	\$350	14	1/19/202	5/11/2021
-------------------------	------------	---------------------	----------------	-----------------------	--------------	-----------	-----------------	------------------

Read to Succeed...With Fun Indeed! Phonetics, Letters, Sight Words, Vocab, Spelling, Comprehension, and Interactive Games.... learn to read through fun and highly motivating games and activities! Lessons will be customized to your child's reading level! Let's read a short story together, followed by answering a few questions and reviewing a few vocabulary words! For more information, you may reach me at patelrp1986@gmail.com

Hip-Hop/Street Dance (K-5/6)	K-5/6	Alejandro Flores	Tuesday	9:20am-10:20am	\$280	14	1/19/202	5/11/2021
-------------------------------------	--------------	-------------------------	----------------	-----------------------	--------------	-----------	-----------------	------------------

We are now offering Hip-Hop/Street Dance ONLINE! Come learn the fundamentals of hip-hop/street-dance: popping, locking, and breaking. We will be learning the moves/vocabulary along with dance history and culture. Class is filled with fun exercises and activities to help spark their creativity and build community within the classroom! By the end of the course, our goal is to build confidence to express themselves through freestyle and memorization skills through dance routines/choreography. Children ages 5 -10 will fit right into this class. Please bring loose fitted clothes (sweats, shorts, t-shirt, and tennis shoes) and some water. Feel free to email Alex at princealifreez@gmail.com if you have any questions!

High School Biology A-G Semester 2 High	Pam Stewart	Tuesday	9:30am-11:30am	\$740	14	1/14/202	5/5/2020
------------------------------------------------	--------------------	----------------	-----------------------	--------------	-----------	-----------------	-----------------

This class meets the standards for high school Biology. It is a college preparatory class that meets A-G standards. Homework and outside reading will be required to earn a grade. This class is the 2nd semester of a year-long class.

The Pleasures of Painting	2-Middle	Mr. Green	Tuesday	10:30am-11:30am	\$350	14	1/19/202	5/11/2020
----------------------------------	-----------------	------------------	----------------	------------------------	--------------	-----------	-----------------	------------------

This class is an introduction to different types of painting. There will be instruction and demonstrations with color theory, watercolor, acrylic paint. We will work different style of painting such as abstract and realistic. Subject matter will include still-life , landscapes and clothed figures. A materials list will be sent out before first the class begin the estimate price of these items is \$25.00..not included in the class.

This is an ongoing class and will be offered for all 14 weeks of this semester.

Hip-Hop/Street Dance (6-12)	Middle-High	Alejandro Flores	Tuesday	10:30am-11:30am	\$280	14	1/19/202	5/11/2021
------------------------------------	--------------------	-------------------------	----------------	------------------------	--------------	-----------	-----------------	------------------

We are now offering Hip-Hop/Street Dance ONLINE! Come learn the fundamentals of hip-hop/street-dance: popping, locking, and breaking. A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Writing Workshop Part 2	2-3	Ilene Marks	Tuesday 10:40am-11:50am	\$350	14	01/19/20	05/11/2021
--------------------------------	------------	--------------------	--------------------------------	--------------	-----------	-----------------	-------------------

Does your child want to be a better writer? Engaging activities promote creativity and improve core writing skills. Students must know 2/3rd grammar and the have an understanding of basic writing. Over the semester students will be continuing to improve the three main types of writing: Narrative, Information and Opinion. Plus, various types of poems and more creative projects. Class enhances public speaking, problem solving and critical thinking. Fun while learning! Small class, lots of individual attention.

Workbook \$20 and to be purchased in advance. Students in this class have completed Writing Part 1. Please contact Ilene to see if your child is ready for this class. Note: Thursday Writing Part 1 is offered. For more information email highlowmusic@yahoo.com.

Spanish Made Easy 4Kids Immersion 2-5/6		Patricia Christensen	Tuesday 10:40am-11:50am	\$350	14	1/19/202	5/11/2020
------------------------------------------------	--	-----------------------------	--------------------------------	--------------	-----------	-----------------	------------------

SPANISH MADE EASY FOR KIDS - IMMERSION CLASS

A play-based approach to learning a foreign language. Spanish instruction through Games, Songs, Dialogue, Storytelling, Skits and Recipes. Students will explore the basics of conversational Spanish. In this weekly class, students will learn basic vocabulary, introduction to simple verbs and foundational phrases. This engaging and playful course will give students a good foundation of the Spanish language.

Patricia C Christensen MA. Native Speaker

Art Drawing	K-1	Mr. Green	Tuesday 12:30pm-1:30pm	\$350	14	1/19/202	5/11/2021
--------------------	------------	------------------	-------------------------------	--------------	-----------	-----------------	------------------

A great class for the young budding artist. Lots of room for visual exploration imagination and creativity . I will be asking students for subject matter ideas. We will learn to draw two and three dimensional shapes and improve motor skills
Attention will be given to first draw soft and light, this will help in their ability to edit the needed changes. The students will follow my step by step instructions to complete the desired drawing. The last half of the class I will instruct on coloring and adding their personal touches to their individual pieces.

This is an ongoing class and will be offered for all 14 weeks of this semester.

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Create & Debate!	2-5/6	Rachna Patel	Tuesday	12:30pm-1:30pm	\$350	14	1/19/202	5/11/2021
<p>Exciting and interactive class for kiddos to:</p> <ol style="list-style-type: none"> 1. Overcome stage fear 2. Builds confidence 3. Improves verbal communication skills 4. Strengthens your child's sense of empowerment 5. Develops critical thinking skills <p>Enhance your child's skills in all of the above by engaging in interactive debates! Public speaking is a very important skill to acquire for not only school purposes, but even for day to day lives! Kiddos will learn to voice their opinions, open up for group discussions, present their findings, and moreover, get their brains churning!</p>								
Middle School Science	Middle	Pam Stewart	Tuesday	12:30pm-1:30pm	\$400	14	1/14/202	5/5/2020
<p>This class meets the California standards for Science. It will cover the topics for 2nd semester. Topics covered may include Life, Physical and/or Earth Science, depending on the background and interests of the students enrolled.</p>								
Journey Around the World	2-5/6	Rachna Patel	Tuesday	1:40pm-2:40pm	\$350	14	1/19/202	5/11/2021
<p>Geography Class: A fun interactive Geography course designed to teach kiddos important geography concepts, such as learning the world's seven continents through a fun song, geographical features of each continent, states and capitals, and so much more! Do mini researches, create fun poster projects, and present your findings! Learn how to read maps and so much more! For more information, contact Rachna at 5019440780.</p>								
Public Speaking Part 2	2-5/6	Ilene Marks	Tuesday	1:40pm-2:40pm	\$340	14	01/19/20	05/11/2021
<p>Continuing our lessons to strengthen skills together and practice, practice, practice! Improve self-confidence with this important skill in a comical & nurturing way. Lessons build on each other so the longer session is necessary to make progress. Activities include more movie monologues, How to Presentations, poems, debates, social action speeches, a news cast and forming a inspirational graduation speech. In addition, students continue to learn the basics to prepare & structure an effective speech . They discover tools to articulate that information, while improving their posture, eye contact & body language. Former PS students welcome. Lessons last a lifetime. For more information please contact Ilene at highlowmusic@yahoo.com.</p>								
Middle School 8th grade Science	Middle	Pam Stewart	Tuesday	1:40pm-2:40pm	\$400	14	1/14/202	5/5/2020
<p>This class will follow the California Science standards for 8th grade science. Topics will include an introduction to astronomy, chemistry and physics. This is the 2nd of a two semester sequence.</p>								

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Presenter Pros	K-High	Rachna Patel	Tuesday	2:50pm-3:50pm	\$350	14	1/19/202	5/11/2021
-----------------------	---------------	---------------------	----------------	----------------------	--------------	-----------	-----------------	------------------

Learn to create attractive & organized presentations w/ fun animations & effects! Great to know for school projects, future jobs, & even for family events. You will work on a presentation using a topic of your choice. You'll learn how to edit & add features, how to remove backgrounds from pictures, & to give an interesting presentation. Use ice breaker activities to involve your audience, & end your presentation strong! Great class for any age group since everyone will be working on individual projects using the lessons learned in class.

For more information, contact Rachna at 501-944-0780

Tour of the Human Body	2-5/6	Madame Atom	Tuesday	10:30am-12:00	\$500	14	1/19/202	5/11/2021
-------------------------------	--------------	--------------------	----------------	----------------------	--------------	-----------	-----------------	------------------

In this science club we are going to learn about ourselves! Our bodies contain a truly remarkable assortment of structures that each have an important job to do. When these parts work together as a coherent whole, they make us—wow! We will take an amazing journey through the human body. First we will learn about the very smallest living unit of our bodies, the cell. Then we will study how cells become specialized to perform their jobs in whatever part of the body they live in. Next we will meet the organs and watch the incredible teamwork that goes on between them. The process is sort of like a symphony where each instrument (like each organ of the body) is just as important as every other; when one does not sound just right, the music (like the human body) falls out of harmony. The human body is truly a masterpiece! Kids will also learn chemistry and physics by focusing on the chemical reactions that occur in our bodies to keep us alive. To learn more visit: www.atomsclub.com

For more information please go to www.atomsclub.com

For more information: www.atomsclub.com

Collaborate & Elaborate!	4-5/6	Rachna Patel	Tuesday	10:40am-11:40am	\$350	14	1/19/202	5/11/2021
-------------------------------------	--------------	---------------------	----------------	------------------------	--------------	-----------	-----------------	------------------

Research ~ Write ~ Present! Read interesting articles, summarize what you read, and present what you discovered. Site your sources!

How can you interest your audience? Bring eye-catching visual aids! Maybe you can even begin with an exciting ice breaker activity!

Let's collaborate & elaborate!

Contact Rachna for more information at 501-944-0780 or patelrp1986@gmail.com

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

D.A.C. Draw Amazing Cartoons 2-5/6 Mr. Green Tuesday 11:30pm-12:30pm \$350 14 1/19/202 5/11/2021

The students will begin by creating a cartoon charactermaybe someone they know or someone made up. We will give life to the character through the surrounding, story, mapping a plot. Drawing storyboards. Mastering expressive typography. In this fun class, students will learn the complete set of techniques needed to illustrate even compelling manga characters and stories just like the ones in their favorite graphic novels. The emphasis will be on humor and positive attitudes, nothing inappropriate.....my rule is if it's okay with your Mom it's okay with me.

This is an ongoing class and will be offered for all 14 weeks of this semester.

Drawing Sketch and Pastels 4-High Mr. Green Tuesday 9:30am-10:30am \$350 14 1/19/202 5/11/2020

Drawing is intense observation, without the ability to study an object, students will not be able to accurately draw the object. In the class students will receive instruction, demonstrations and opportunities to work with different types of paper surfaces and medium. Starting with basic concepts including negative space, line, form, and color theory, they will move on to practice techniques such as shading, texture, and perspective to add dimension and depth to their work.

This is an ongoing class and will be offered for all three sessions of this semester.

SPANISH1 A-G Immersion Online High Patricia Christensen Tue & Thu 12:00pm-1:00pm \$400 14 1/19/202 5/13/2021

SPANISH 1 A-G ONLINE - IMMERSION CLASS (HS)

This course is designed to follow state standards. Lessons develop reading, vocabulary, pronunciation, conversation practice, and grammar instruction. Interactive group activities focusing on oral language development, reading comprehension, and writing tasks. This course introduces students to the culture of the Spanish language while actively developing students' ability to be proficient in the language. This class can be taken for A-G credit, as well as non A-G.

Instructor: Patricia Costa Christensen, MA (Native Speaker)

English 1 (a-g grade 9) High Victoria Kazarian Tue & Thu 1:40pm-2:40pm \$400 14 1/19/202 5/17/2020

No one should have to dread writing! My goal in this class is to grow a love of writing by encouraging students to write what they feel passionate about. This high school-level class (based on grade 9 standards) is for students looking to work on writing skills, literary analysis, grammar and vocabulary. Students will keep a writing journal, with entries due at each class. This class is a-g approved, but I also welcome students not taking the a-g track.

A TEAM Online Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

American Literature (a-g grade 11) High Victoria Kazarian Tue & Thu 2:50pm-3:50pm \$400 14 1/19/202 5/17/2021

American Literature traces the exciting history of our country through its literature, from colonial times to the pursuit of the American Dream in the 21st century. We'll read works by American writers and learn to respond to fiction and nonfiction, also working on all steps of the writing process. This class is a-g approved but also open to students not taking the a-g track.

The Pleasures of Painting 2-Middle Mr. Green Wednesday 10:30am-11:30am \$350 14 1/20/202 5/12/2021

This class is an introduction to different types of painting. There will be instruction and demonstrations with color theory, watercolor, acrylic paint. We will work different style of painting such as abstract and realistic. Subject matter will include still-life , landscapes and clothed figures. A materials list will be sent out before first the class begin the estimate price of these items is \$25.00..not included in the class.

This is an ongoing class and will be offered for all 14 weeks of this semester.

A.T.O.M. Science Club 4-5/6 Madame Atom Wednesday 10:30am-12:00pm \$500 14 1/20/202 5/12/2021

Some science programs give students just a taste of science, exposing them to an idea here and there. A.T.O.M. Science Club gives them the full meal, not just the appetizer. Rather than focusing on whiz-bang-wow demonstrations, this academically oriented program targeting STEM education provides a solid foundation in the principles of science. Club members discover the incredible connections among atoms, molecules, living organisms, and our universe. Through hands-on experiments, discussion, and presentations, we study chemistry (atoms), physics (energy and matter and how they interact), biology (life study), and astronomy (the universe).

Your child will not only gather knowledge but, like Galileo Galilei, will learn to think critically and analyze situations scientifically. For more general information about A.T.O.M. Science Club please visit the website: <http://www.atomsclub.com>

Book Club 2-3 Ilene Marks Wednesday 10:40am-11:50am \$320 14 01/20/20 05/12/2021

Social action, climate issues, racial injustice, heroes overcoming obstacles, gender discrimination, I can not stress how meaningful the conversations have been in this class! Books, discussions, projects oh my. Discussions are thought provoking & intriguing. Projects creatively correspond to the stories. Class enhances writing, public speaking, problem solving & critical thinking skills. Look forward to fabulous, creativity & engaging conversations. Fun while learning! Please contact Ilene at highlowmusic@yahoo.com for more information.

Yearbook & Newsletter	Middle-High Tiffany Nyberg	Wednesday 12:30pm-1:30pm \$175	14	1/20/202	5/12/2021
----------------------------------	-----------------------------------	---------------------------------------	-----------	-----------------	------------------

This class is a year long class. The final product is printed for distribution in May. It is important for students to attend both semesters (\$400 total for the year).

This collaborative class will design and produce A TEAM's yearbook. The students will learn how to budget, set prices, market, produce and sell the yearbook for this school year. They will design layouts, make decisions and have assignments with deadlines to keep the project on schedule. Are they a photographer, a writer or an artist? Are they aspiring to be a business or marketing manager? If yes, come join us for a great semester of fun and creativity. We will also publish a monthly newsletter with interviews and upcoming events.

Join the Mission to Mars	4-High	Madame Atom	Wednesday	12:30-2:00	\$500	14	1/20/202	5/12/2021
---------------------------------	---------------	--------------------	------------------	-------------------	--------------	-----------	-----------------	------------------

Right now, NASA is preparing for its next great adventure on the mysterious red planet, Mars! NASA scientists are getting ready for the landing of Perseverance, its next robotic rover on Mars, this coming February. As excitement builds, A.T.O.M. Science Club will conduct a special online program that will allow students and their families to participate in this adventure. Club members will learn about the Perseverance rover and its mission and look back at the rovers and landers that journeyed to Mars before it. They will learn how to use NASA online tools to explore the surface of Mars as seen through the eyes of many scientific instruments in orbit around Mars. Each month, we will chat with a NASA scientist to learn about different exciting landforms and locations on the surface of Mars. We will look beyond Perseverance, and gain an understanding of the criteria being used to select the first human landing site on Mars! To learn more visit the website: www.atomsclub.com

-----------------------------------	--------------------	------------------	------------------	----------------------	--------------	-----------	-----------------	------------------

Drawing is intense observation, without the ability to study an object, students will not be able to accurately draw the object. In the class students will receive instruction, demonstrations and opportunities to work with different types of paper surfaces and medium. Starting with basic concepts including negative space, line, form, and color theory, they will move on to practice techniques such as shading, texture, and perspective to add dimension and depth to their work.

This is an ongoing class and will be offered for all 14 weeks of this semester.

A.T.O.M. Science Club	2-5/6	Madame Atom	Wednesday	2:00pm-3:30pm	\$500	14	1/20/202	05/12/2021
------------------------------	--------------	--------------------	------------------	----------------------	--------------	-----------	-----------------	-------------------

Some science programs give students just a taste of science, exposing them to an idea here and there. A.T.O.M. Science Club gives them the full meal, not just the appetizer. Rather than focusing on whiz-bang-wow demonstrations, this academically oriented program targeting STEM education provides a solid foundation in the principles of science. Club members discover the incredible connections among atoms, molecules, living organisms, and our universe. Through hands-on experiments, discussion, and presentations, we study chemistry (atoms), physics (energy and matter and how they interact), biology (life study), and astronomy (the universe).

Your child will not only gather knowledge but, like Galileo Galilei, will learn to think critically and analyze situations scientifically. For more general information about A.T.O.M. Science Club please visit the website: <http://www.atomsclub.com>

D.A.C. Draw Amazing Cartoons	2-5/6	Mr. Green	Wednesday	3:00pm-4:00pm	\$350	14	1/20/202	5/12/2021
-------------------------------------	--------------	------------------	------------------	----------------------	--------------	-----------	-----------------	------------------

The students will begin by creating a cartoon charactermaybe someone they know or someone made up. We will give life to the character through the surrounding, story, mapping a plot. Drawing storyboards. Mastering expressive typography. In this fun class, students will learn the complete set of techniques needed to illustrate even compelling manga characters and stories, just like the ones in their favorite graphic novels. The emphasis will be on humor and positive attitudes, nothing inappropriate.....my rule is if it's okay with your Mom it's okay with me.

This is an ongoing class and will be offered for all three sessions of this semester.

IEW Writing Semester 2	4-5/6	Jordan Wolfe	Thursday 10:40am-11:50am	\$350	14	1/21/202	5/13/2021
-------------------------------	--------------	---------------------	---------------------------------	--------------	-----------	-----------------	------------------

This is a continuation of IEW writing in which we will cover the second half of the lessons in Institute for Excellence in Writing's curriculum: Structure and Style for Students Year 1 Level A. New students are welcome to join if they feel they are ready to jump into writing multi paragraph papers. This class will meet online through Zoom. Contact Jordanwolfe42@gmail.com with any questions you have about the course.

Required text: <https://iew.com/shop/products/structure-and-style-students-year-1-level-binder-student-packet>

Spanish Made Easy (MS) Immersion Middle		Patricia Christensen	Thursday 10:40am-11:50am	\$350	14	1/21/202	5/13/2021
------------------------------------------------	--	-----------------------------	---------------------------------	--------------	-----------	-----------------	------------------

SPANISH MADE EASY FOR TEENS - IMMERSION CLASS (MS)

A play-based approach to learning a foreign language. Spanish instruction through Games, Dialogues, Storytelling, Skits, and Recipes. These weekly classes will focus on conversational Spanish, and basic grammar. Students will learn to read a simple book in Spanish, and answer comprehension questions. Cultural Teachings. This course introduces students to the culture of the Spanish language while actively developing students' ability to be proficient in the language. Instructor: Patricia Costa Christensen, MA (Native Speaker)

British Literature (a-g 12)	High	Victoria Kazarian	Thursday 10:40am-11:50am	\$400	14	1/21/202	5/17/2021
------------------------------------	-------------	--------------------------	---------------------------------	--------------	-----------	-----------------	------------------

This class traces the development of the English language through its epic adventure stories, starting with Beowulf, translated by Tolkien. We'll take a road trip with Chaucer to Canterbury, with Shakespeare to the Globe Theatre, then spend time with the funny, satirical writers of the 18th century. After experiencing the drama of Frankenstein, we'll end the year as we started it—with Tolkein, and his Fellowship of the Ring. This class is a-g approved but also open to those on a non-a-g track.

Art Drawing	K-1	Mr. Green	Thursday 12:30pm-1:30pm	\$350	14	1/21/202	5/31/2021
--------------------	------------	------------------	--------------------------------	--------------	-----------	-----------------	------------------

A great class for the young budding artist. Lots of room for visual exploration imagination and creativity . I will be asking students for subject matter ideas. We will learn to draw two and three dimensional shapes and improve motor skills Attention will be given to first draw soft and light, this will help in their ability to edit the needed changes. The students will follow my step by step instructions to complete the desired drawing. The last half of the class I will instruct on coloring and adding their personal touches to their individual pieces.

This is an ongoing class and will be offered for all 14 weeksof this semester.

A TEAM Class List (Prices are per Semester/Session)

IEW Writing Semester 1	2-5/6	Jordan Wolfe	Thursday 12:30pm-1:30pm	\$350	14	1/21/202	5/13/2021
-------------------------------	--------------	---------------------	--------------------------------	--------------	-----------	-----------------	------------------

This class will help students improve their writing using different stylistic techniques, outlines, and word choices. In the first semester, we will go from creating basic outlines to composing multiple paragraph essays and stories based on various, fun fiction and non-fiction texts. We will be using the Institute for Excellence in Writing curriculum: Structure and Style for Students Year 1 Level A. IEW suggests this curriculum level for 3rd-5th grade students based mainly on the reading material, pace, and vocabulary level, however the course may also be useful for middle schoolers looking to improve their composition skills.

Required text (can be used for 2 semesters): <https://iew.com/shop/products/structure-and-style-students-year-1-level-binder-student-packet>

Biology, The Exploration of Life	4-5/6	Madame Atom	Thursday	10:30 pm-12:00	\$500	14	1/21/202	5/14/2021
-----------------------------------------	--------------	--------------------	-----------------	-----------------------	--------------	-----------	-----------------	------------------

In this biology course, we will analyze the current hypothesis of how life might have started as we learn the basic chemical ingredients all life still shares today. Club members will delve into the intricate internal machinery that keeps all cells metabolizing. We will then explore how life is able to evolve and examine the mechanisms that allow life to adapt to an ever-changing planet. This is a thorough, interactive course for students who want to study biology with a curious mind in the presence of experts in the field. Club members will observe life, build models, act out processes, conduct experiments, and explore life as they have never done before. For a more detailed description of the topics and information we will cover please go to this link: <https://atomsclub.corsizio.com/c/5f3c80e33ed0e3b347013a25>

Language Arts Grammar Part 1	2-3	Ilene Marks	Friday	9:20am-10:20am	\$350	14	01/22/20	05/14/2021
-------------------------------------	------------	--------------------	---------------	-----------------------	--------------	-----------	-----------------	-------------------

Enhance essential skills with this literacy and critical thinking program designed to improve a student's grammar, reading, spelling, punctuation, writing & creativity. Classes build stronger language and communication skills. Activities enhance problem solving & public speaking. Students use their own Language Smarts workbook to be purchased before class. I have a few. (\$35) Fun while learning! Small class, lots of individual attention. PLEASE NOTE: Students must be reading, however, this class will enhance their skills and explain concepts. Please contact Ilene at highlowmusic@yahoo.com for more information.

Ballet Fun	2-Middle	Michelle Cardoza	Friday	12:30pm-1:30pm	\$245	14	1/22/202	5/14/2020
-------------------	-----------------	-------------------------	---------------	-----------------------	--------------	-----------	-----------------	------------------

This class is for beginning students of ballet and also those who have had previous experience of ballet, but would rather be on an online setting. Ages taught in this class are 7-12. Students can wear ballet attire including leotard and tights and/or skirt or clothes that are comfortable but form fitting such as leggings and a t-shirt. If the minimum number of students isn't reached, I will still offer one on one class at a reduced time of 45 min.

Human Evolution, Intro To	4-Middle	Madame Atom	Friday	10:30pm-12:00pm	\$500	14	1/22/202	5/14/2021
----------------------------------	-----------------	--------------------	---------------	------------------------	--------------	-----------	-----------------	------------------

Come take a journey through time, starting with molten Earth. This science adventure gives club members a big-picture look at where the human species fits in the biological world. Life began as a single cell on our 4.7-billion-year-old planet. How is it possible that humans—complex multi-cellular beings—are now alive and thriving on Earth? Physical anthropologists are trying to figure out this amazing story. Club members will study the evidence and come up with their own hypotheses regarding our earliest ancestors. Madame Atom will share stories about her meetings with world-famous anthropologist Louis Leakey and primatologist Jane Goodall. And she'll discuss her exciting field adventures, unearthing and piecing together human remains and teaching language to chimpanzees!.
