

A TEAM San Jose Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Circle time with music, math &	K-1	Becky Beaudoin	Tuesday 10:00am-12:00pm	\$255	6	4/13/2021	5/18/2021
---	------------	-----------------------	--------------------------------	--------------	----------	------------------	------------------

Music, Art, Math and Language Arts with Becky

This K-1 class gives children an opportunity to explore all aspects of music, in a high energy, child friendly, age appropriate way. We will learn basic music theory. We will work on pitch by singing songs. We will learn rhythm through movement and games. Math concepts such as patterning are incorporated into musical games.

This K-1 class is all about stories, both time honored classics and new favorites. We will listen to stories, tell stories, and create art. Children will be encouraged to bring items from home to tell their own stories about. Through out the semester children will be improving their reading and public speaking skills, gaining social skills, increasing their vocabulary, creativity, building friendships and a love of reading.

Living History/Science	2-5/6	Scott Gentile	Tuesday 10:00am-12:00pm	\$255	6	4/13/2021	5/18/2021
-------------------------------	--------------	----------------------	--------------------------------	--------------	----------	------------------	------------------

Living History-Sampler Class-for our 6 classes, we will draw from our backlog of LH curricula, which may include Norse, Ancient Greece/Rome, Renaissance/Medieval, Aztec/Inca/Maya, Ancient Egypt/Ancient China, and much more! As always, there will be plenty of building with large cardboard, role-playing, and other "special" activities. Great for both new and veteran Living History students, and very hands-on! Different lessons from session 2.

Science- Lessons may draw from Biology, Physics, Chemistry, and Ecology, and will be very hands-on and fun! Possible lesson content may include things that fly, fall, or roll, as well as an active Ecology game and/or investigation. Lessons will be different from session 2.

Sports and Games RC cars	4-High	Tiffany Nyberg	Tuesday 10:00am-12:00pm	\$255	6	4/13/2021	5/18/2021
---------------------------------	---------------	-----------------------	--------------------------------	--------------	----------	------------------	------------------

Get a taste of some fun sports while keeping your distance. We will play several different sports during the semester. The students will help determine the sport. There are several to choose from..... badminton, volleyball, Frisbee golf, kickball and more... Fun games too! Good sportsmanship will be emphasized. This is also a great class to get to know other students at A TEAM.

Have fun with RC cars! Learn how they work and how to drive them. Students will design tracks on different surfaces. Find out more about racing with this fun hands on class. We use Traxx cars and you are welcome to bring your own.

Lunchtime Supervision	K-High	Lunchtime A TEAM	Tuesday 12:30pm-1:00pm	\$20	6	4/13/2021	5/18/2021
------------------------------	---------------	-------------------------	-------------------------------	-------------	----------	------------------	------------------

A time for students to get together to eat and play. Lunch is NOT provided by A TEAM.

A TEAM San Jose Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Snap Engineering and Robotics	K-5/6	Vaishali Dubal	Tuesday	12:30pm-2:30pm	\$255	6	4/13/202	5/18/2021
--------------------------------------	--------------	-----------------------	----------------	-----------------------	--------------	----------	-----------------	------------------

Snap Engineering and Robotics:

Learn about LEGO® engineering and Robotics through this fantastic and interactive Snapology class! Students will get the tools to truly understand mechanical movement through engineering process and program the robotics model to move using code by building machines and robotics models like spin art devices, windmills, catapults, space ships and even moving games they can play. Kids will learn about gear ratio, sensors, programming, and pulleys, as they create fun projects using LEGO® bricks and technology. Join the fun!

Living History/Zombie Camp	2-5/6	Scott Gentile	Tuesday	12:30pm-2:30pm	\$255	6	4/13/202	5/18/2021
-----------------------------------	--------------	----------------------	----------------	-----------------------	--------------	----------	-----------------	------------------

Living History-Sampler Class-for our 6 classes, we will draw from our backlog of LH curricula, which may include Norse, Ancient Greece/Rome, Renaissance/Medieval, Aztec/Inca/Maya, Ancient Egypt/Ancient China, and much more! As always, there will be plenty of building with large cardboard, role-playing, and other "special" activities. Great for both new and veteran Living History students, and very hands-on! Different lessons from morning Living History lessons, if and students are taking both AM and PM.

Zombie Survival Camp--It's baaa-aaack!! Join Mr. Scott for some nature survival skills and teamwork challenges with a "scary" zombie twist! Skill lessons may include compass skills and challenge, map-making, (attempted) fire-making, shelter-building, and/or basic first-aid, while teamwork challenges may include "river"-crossing and/or group juggle.

"Hands-on" Life Skills	Middle-High	Dave Nyberg	Tuesday	12:30pm-2:30pm	\$255	6	4/13/202	5/18/2021
-------------------------------	--------------------	--------------------	----------------	-----------------------	--------------	----------	-----------------	------------------

"Hands-on" life skills! Don't miss this valuable experience!

Learn names and safe use of basic hand and power tools: Hammer, screwdrivers, pliers, cordless drill, jigsaw, etc...

Experience changing a car tire, fixing a bike flat, checking fluid levels in your car, fix a fence, fix a leaky faucet, plunge a toilet, replace light bulbs, fix a busted sprinkler, take out the trash, using a shovel, using a rake, etc...

Practice these new skills on real projects at our A TEAM Bernal Campus under the watchful eye of a seasoned, professional craftsman, that's been teaching skills like these to kids for over 45 years.

Apply these new skills to your life!

A TEAM San Jose Campus - Spring 2021

A TEAM Class List (Prices are per Semester/Session)

Sports and Games/RC cars	4-High	Tiffany Nyberg	Wednesday 10:00am-12:00pm	\$255	6	4/14/2021	5/19/2021
---------------------------------	---------------	-----------------------	----------------------------------	--------------	----------	------------------	------------------

Get a taste of some fun sports while keeping your distance. We will play several different sports during the semester. The students will help determine the sport. There are several to choose from..... badminton, volleyball, Frisbee golf, kickball and more... Fun games too! Good sportsmanship will be emphasized. This is also a great class to get to know other students at A TEAM.

Have fun with RC cars! Learn how they work and how to drive them. Students will design tracks on different surfaces. Find out more about racing with this fun hands on class. We use Traxx cars and you are welcome to bring your own.

Lunchtime Supervision	K-High	Lunchtime A TEAM	Wednesday 12:30pm-1:00pm	\$20	6	4/14/2021	5/19/2021
------------------------------	---------------	-------------------------	---------------------------------	-------------	----------	------------------	------------------

A time for students to get together to eat and play. Lunch is NOT provided by A TEAM.

Making and Mechanics	4-High	Jordan Wolfe	Wednesday 12:30pm-2:30pm	\$320	6	4/14/2021	5/19/2021
-----------------------------	---------------	---------------------	---------------------------------	--------------	----------	------------------	------------------

Learn to think like an engineer and build the confidence needed to take on your own mechanical problems or projects!

From egg drops to R/C vehicles to 3D printing and more, this class will give kids the opportunity to use and improve their design and mechanical skills. We will discuss the science and logic related to class projects and challenges, and then use that knowledge to experiment and create.

This class has a required materials fee of \$20.

A TEAM Class List (Prices are per Semester/Session)

Outdoor Vocal Music Basics &	4-High	Ann Wolfe	Wednesday 12:30pm-2:30pm \$255	6	4/14/202	5/19/2021
---	---------------	------------------	---------------------------------------	----------	-----------------	------------------

If you love to sing, come join others and learn how to sound great together! You don't have to have a great solo voice to sing in a choir. This class will complement any music lessons you are taking now.

This 2-hour class time will be broken up with breaks for water and playground/field time as needed. Total singing and instruction time will be around 1 hour to 1 1/4 hours.

We will learn—

- Caring for our voices
- Warm-ups
- 2-3-part harmony in rounds and other songs
- Blending with other voices
- Solfege hand signs and Solfa syllables
- Beginning reading in Rhythm and Pitch
- Ear training and listening skills
- Performance skills

At the end of our session we will invite parents to hear our progress!

(Note: We will have students adequately distanced for safe singing outdoors.)

Requirements:

The student must have a desire to sing and have the ability to listen and follow direction. (Students are welcome to try the class to see if the class is a good fit. Email me if you'd like a trial class.) Having the ability to sing in tune is important for your child's enjoyment. Students are welcome to try the class to see if the class is a good fit. Email me if you'd like a trial class. If you have questions, please contact me, annleewolfe@gmail.com

LEGO® STEM/Robotics:Space	K-3	Vaishali Dubal	Thursday 10:00am-12:00pm \$255	6	4/15/202	5/20/2021
----------------------------------	------------	-----------------------	---------------------------------------	----------	-----------------	------------------

LEGO® STEM & Robotics: Space Science- Blast off ! Campers will study the solar system, including stars, planets, and NASA in this out of this world class. Through building with LEGO® bricks, creating robots, and more awesome activities, children will study the structure of the solar system, learn how astronomers travel to space, and learn other fundamental Astronomy concepts through play. Build a robotic Mars Rover, design a LEGO constellation, and more!

Eco Journalists	2-5/6	BEan Nature Team	Thursday 10:00am-12:00pm	\$259	6	4/15/2021	5/20/2021
------------------------	--------------	-------------------------	---------------------------------	--------------	----------	------------------	------------------

Eco Journalists: CONNECTING TO THE EARTH WITH CREATIVE WRITING AND SCIENCE with Bean In Nature

Our inquiry-based, nature-based writing and science class encourages students to explore the world around them to assist in guiding their writing. The natural world provides inspiration for limitless writing topics and expression! The class will be adaptable to different writing levels, and will include starting an outline, building out sentences/paragraphs, and adding depth to our writing. We will have interactive discussions to encourage and grow each other's writing in a supportive setting.

Our class will explore SPRING's seasonal changes on our earth, animals, plants, pollinators, we will explore and cultivate in our A TEAM Garden, learn conservation and regenerative earth lessons and more! BEan mentors facilitate kids to love, care and connect to nature not by using a 'teach at the child' didactic model, instead we use the skillful art of questioning, creative guiding and mentoring, experiential child-led focus and facilitate learning by doing, where we share our contagious enthusiasm, our imagination, and our own love of nature.

Lunchtime Supervision	K-High	Lunchtime A TEAM	Thursday 12:30pm-1:00pm	\$20	6	4/15/2021	5/20/2021
------------------------------	---------------	-------------------------	--------------------------------	-------------	----------	------------------	------------------

A time for students to get together to eat and play. Lunch is NOT provided by A TEAM.

STEM Challenges & Engineering	K-5/6	Vaishali Dubal	Thursday 12:30pm-2:30pm	\$255	6	4/15/2021	5/20/2021
--	--------------	-----------------------	--------------------------------	--------------	----------	------------------	------------------

STEM Challenges & LEGO Engineering:

This program teaches various aspects of STEAM education through fun and interactive building activities! Each week will be put to the test as they are challenged to create projects using LEGO® technic bricks, motors, and other interactive STEM materials in a whole new way. Students will learn how to make LEGO fidget spinners, engineer towers to withstand earthquakes, swing rides, bumper cars and test their very own LEGO race cars on roads and ramps they create themselves and many more. Student will develop new design ideas, test out physics concepts, and even play fun building games with friends!

Hip-Hop/Street Dance Freestyle	2-Middle	Alex Flores	Thursday 12:30pm-2:30pm	\$255	6	4/15/2021	5/20/2021
---------------------------------------	-----------------	--------------------	--------------------------------	--------------	----------	------------------	------------------

Alex will be leading the Hip-Hop/Street Dance Freestyle + Choreography Pod. We'll be covering the fundamentals of street dance (popping, locking, breaking, party dance, and more...) while also learning about the origins of Hip Hop culture and dance. There will be a focus on building confidence through freestyle and improvisational skills as well as learning choreography and routines! Loose fitted clothing (sneakers, shorts, sweat pants) and water are recommended. Please email all questions to princealifreez@gmail.com.
